

The Advanced Management Programme

4 - 8 May 2025

Istanbul (Turkey)

The Advanced Management Programme

course code: M1092 From: 4 - 8 May 2025 Venue: Istanbul (Turkey) - Radisson Blu Sisli course Fees: 4500 Euro

The Course

Today's executives have no room for error in navigating the market upturn to ensure their organization's survival and success. This all-new capstone to our Management Programme is a fast track to more effective senior management by learning to best leverage your corporation's competencies and build high value, sustainable growth.

An excellent course for experienced executives looking for late breaking management ideas centered on strategy and "growth maximization" to prepare for market realities in the next three years.

- Starting with a personalized diagnosis of your current processes
- Review prevalent management practices on today's organisations
- Recognize and take action on new sources of growth in the areas of strategy
- Managing and engaging people through organizational performance
- Provide value for customers and resolving management challenges

The Goals

- Understand and contribute to a discussion of emerging business issues in management.
- Determine your leadership and management advantage and plan your future in a risk free environment.
- Provoke traditional assumptions and examine business challenges from new current perspectives.
- Build on core functional competencies by creating a sustaining competitive advantage.
- Shift to new management and leadership paradigms and behaviors.
- Develop an implementation plan for your return.

An ideal candidate is:

- A senior functional head
- A member of the executive committee
- The head of a major business unit
- A senior member of the operating group

The Process

The program is delivered in a highly interactive, hands-on learning style by senior consultants with corporate experience. In addition to trainer-led group discussions, case studies, and learning group exercises, this programme includes experiential learning and other instructional modalities to accommodate a variety of executive learning styles and to improve learning and retention.

The Benefits

- Turn ideas into action through a hands-on case which interconnects all the influences on general management decisions

- Capture advanced-level management learning in a concise and dynamic format
- Build readiness to seize opportunities as markets turn up
- Gain exposure to pioneering trends in productivity, innovation, strategy, performance, etc.
- Connect with an exceptional peer group from diverse industries
- Gain coaching advice from senior consultants on igniting growth and momentum in your organization

The Results

- Focusing on ways to create value in a downturn.
- Understand results-oriented view of marketing prepares senior leaders to manage marketing across multiple areas.
- Gain effective strategies for maximizing potential for greater bottom-line and shareholder value.
- Exploring the techniques for managing incremental and disruptive innovation, as well as the organizational dilemmas inherent in managing strategic contradictions.
- Explore new market space opportunities.

The Core Competencies

- Emphasizing the art of configuring internal management activities to create new sources of competitive advantage.
- Acquiring a set of methodologies and action-planning tools for diagnosing and solving organizational problems.
- Analyzing the role of senior management in applying competitive analysis and best alternative strategies.
- Applying strategic analysis to evaluate available resources, market opportunities, and the effectiveness of organizational structures, systems, and processes.
- Analyzing the options for articulating a clear vision, building a coalition of support, and creating an organization that is capable of reinventing itself.
