- Planning
- Quality Assurance
- Technology
- Management

Program Content

- Inspection and Test Terminology
- Requirements for effective Inspection, Measuring Test Equipment Use
- Inspection, Measuring Test Equipment...
 - Acquisition
 - Control
 - Calibration (including traceability)
 - Maintenance
 - Demonstration of Conformance to requirements
- Methodologies Technologies
 - Best Industry Practices
 - Latest Tools and Techniques
 - Management Systems
- Understanding and Interpreting Practical Requirements from...
 - Standards and Codes
 - Drawings
 - Specifications
- Maintaining CALIBRATION STATUS OF TEST MEASURING EQUIPMENT TO:
 - Manufacturer Requirements
 - ISO-9000 Requirements
 - Industry Standards
- Calibration Awareness
- Corrective Action Analysis - Inspection, Measuring Test
- Usual Causes of Errors
- Calibration Certificates

- Calculating Uncertainty of Measurements

Case Studies (selected case studies will depend on participant profile and job requirements)

- Welding Inspection Testing
- Petrochemical Plant Equipment Inspection Testing
- Equipment Inspection Testing
- Pump Inspection
- First Entry Inspection
- Periodic Inspections
- Safety During Inspection Testing
- Reporting
