Smart Leadership: Achieving Strategy through Leadership and Innovation

course code: M1012 From: 3 - 7 March 2025 Venue: Tbilisi (Georgia) - course Fees: 4500 Euro

The Course

Innovation is the key strategy of many organizations in the global competitive industries of the new century. New ideas can lead to programs, products and services which can provide a distinct competitive advantage over competitors. With routine tasks becoming more automated and the competitive environment becoming more dynamic, creative problem solving and innovation will play an increasingly important role in determining the success of business leaders. Creativity is the process of generating new and useful ideas. Innovation is taking a new idea and putting to use. The critical role of the leader is to create the environment where creativity and innovation flourish, and where people's innate resistance to the changes that requires is successfully overcome.

This program offers an opportunity to focus on the development and nurturing of people, processes and practices that foster innovation to come up with better methods and services to out perform competition. The program will demonstrate how to take the strategic plan and process to the next level and gaining the essential "buy-in" from all employees by a methodology proven by some of the world's largest corporations. Getting their energy, ideas and changes to make the strategic process a success is vital and is the core of this program.

The Goals

This seminar aims to enable participants to:

- Set creativity and innovation in a strategic context
- Understand the drivers for a greater emphasis in business on creativity and innovation
- Identify the processes and activities which support creativity and innovation in organizations
- Identify the strategies, tools and techniques to improve levels of creativity and innovation
- Understand how the process of change can block or enable employees at all levels to resist or embrace a greater emphasis on creativity and innovation
- Understand the crucial role and skills of the leader in creating an environment where creativity and innovation thrive

The Benefits

- Develop skills for strategic leaders to lead the process of building the right culture for fostering innovation
- Improve preparedness to deal with strategic improvements
- Establish organizational, team and personal innovative capabilities
- Improve performance by executive innovative processes and functions
- Improve motivation and gain participation of the full workforce
- Allow leaders to better meet challenges of dynamic, strategic change

The Results

The skills learned in this program will enable any manager to drive forward new ideas that can contribute to making any new strategy a success. Advancements in an enterprise come about because innovation or constant improvement techniques are encouraged by management to get all

employees performing with new levels of thinking. Gaining the buy-in from all participants who can make the new strategy or change work is a key result of this program.

The Core Competencies
