

Strategic IT Leadership

31 March - 4 April 2025

Lisbon (Portugal)

Strategic IT Leadership

course code: C8105 From: 31 March - 4 April 2025 Venue: Lisbon (Portugal) - course Fees: 4500 Euro

Introduction

Management of IT services is no longer enough. The strategic importance of information services to the enterprise makes IT a critical partner in meeting business goals.

Defining IT strategy, and leading an agile IT organization that is customer-centric, making good strategic management and technical decisions and leverage your IT resources is the challenge IT leaders face today. Strategic IT Leadership will give you the skills you need to meet these challenges.

Objectives

This seminar reveals the most important aspects of leading and managing a world-class, strategically aligned IT department.

From aligning IT projects with corporate strategy to defining value and performance measurement, knowing when to adopt new technologies, from team building and finding and keeping the right people, to planning and budgeting, you will learn the keys to strategically align your IT services with professional, world class, proven techniques.

Conference Methodology

The seminar combines presentations with interactive workshop exercises, supported by video material and case studies. Delegates will be encouraged to participate actively in relating the strategies of effective IT leadership to the particular needs of their enterprise.

Organizational Impact

- Learn techniques for aligning IT and corporate strategy for maximum ROI.
- Develop visionary, innovative, and effective IT strategies for the success of the organization.
- Making new IT initiatives and technologies support the corporate vision.
