

Process Safety Management Compliance

2 - 6 December 2024

Trabzon (Turkey)

# Process Safety Management Compliance

course code: C8174 From: 2 - 6 December 2024 Venue: Trabzon (Turkey) - course Fees: 4500 Euro

## INTRODUCTION

Most Process Organisations have implemented an integrated approach to managing health, safety and environmental 'HSE' risks through an HSE Management System. This programme aims to highlight the benefits of such a system and its elements, based on industry best practice. This programme is designed to help delegates to demonstrate compliance with the organization HSE Management System, special focus is on risk management and promoting positive safety culture. In this programme you will learn to:

- Appreciate your role and responsibilities within the HSE Management System
- Enhance your knowledge of elements, sub-elements and expectations of the HSE- MS
- Gain necessary skills in carrying out practical risk assessment and incident investigation and analysis
- Develop a plan for promoting positive safety culture

## CONFERENCE OBJECTIVES

- Describe the company's HSE Management Systems
- How to demonstrate compliance with elements, sub-elements and expectations of the HSE- MS
- Understand the role of risk management in terms of risk assessment and incident investigation and analysis
- Appreciate the role of human error in risk assessment and contribution to incidents
- To identify weaknesses in the HSE- MS through analysis of root-causes for incidents
- Be familiar with the requirements of HS(G)65, BS 8800, OHSAS 18000, ISO 9000 and ISO 14000
- Be able to prepare action plans, setting targets and measuring performance
- Appreciate the value of promoting positive safety culture within your organisation

## TRAINING METHODOLOGY

Participants will learn by active participation during the programme through the use of exercises, questionnaire, syndicate and group discussion, training DVDs and discussions on 'real life' issues in their organisations.

## CONFERENCE SUMMARY

The conference aims to assist delegates in demonstrating compliance with the Company's HSE Management System. HSE- MS is detailed in terms of elements, sub-elements and expectations, based on best industry practice. Special focus will be placed on pro-active and reactive risk management element. The conference will concentrate on enhancing knowledge on risk assessment and incident investigation and issues relating to promoting positive safety culture within the organisation
