

Management Analysis and Operational Audit
including Performance Evaluation of Refineries,

9 - 27 September 2024

Bangkok (Thailand)

Management Analysis and Operational Audit including Performance Evaluation of Refineries, Petro-Chemical & Chemical Process Plants

course code: E9385 From: 9 - 27 September 2024 Venue: Bangkok (Thailand) course Fees: 8250 Euro

Program Overview

In this program you will learn about...

This Program builds strong Performance Analysis, Auditing and Management Skills in the participants.

It will build capabilities for verifying that the organization's policies, objectives, plans, processes, written procedures and all other elements of organization activities are being implemented, and are operating, effectively - achieving your organization's strategic goals.

This program will also help you Identify Continuous Improvement Opportunities by...

- Building a high level of understanding of all organization processes including for each process: What? How? Why? When? Risks? Impact on Strategic Goals?
- Following a Very Practical Checklist approach to make learning relevant and applicable to On-the-Job Performance Needs.
- Showing what is involved to bring organization's operations in Compliance with ISO-9000 requirements.

Program Content

This Program extensively relies on Checklists, Procedures, Step-by-Step Instructions and Case-Studies.

Emphasis is on Easy Practical Approach to Solving Problems.

Covers: the Issues, Procedures, Key Questions Methodology Guidelines

Identification of Parameters, Measurement Methods, Planning and Management.

AGENDA

Part-I (First week)

Management Processes Procedures on Refinery and Petro-Chemical Plants, including Continuous Improvement Opportunities

- New Management Methodologies
- The Nature of Performance Problems in Process Plants
- Understanding Organizational Strategy
- Understanding Customer or Stakeholder Focus
- Performance Risks on Oil Refinery Petro-Chemical Production Facility

- Understanding the Good Practices (Participant will be provided a list of Industry Good Practices)
- Best Practice Opportunities (Participant will be provided a list of Industry Best Practices)
- Understanding Continuous Improvement: What is Value for the Organization.
- Implementing Continuous Improvement.
 - Continual Improvement System Step by Step Methodology
