Strategic Planning & Goal Setting: Setting Business Goals, Targets & Deliverables (Certified Planner)

course code: M1110 From: 10 - 14 March 2025 Venue: London (UK) - course Fees: 4500 Euro

Introduction

Effective strategic planning is essential to the future success of any organization. However, most strategic planning is lacking in vision. It is merely a straight-line extrapolation of the past into the future. In a world where the pace of change is greater than ever before this is at best shortsighted and at worst a prescription for disaster. Real strategic planning is about positioning the organization for a future which will be different from the past. This new seminar will focus on strategic planning as the essential management system guiding the organization into the future by setting focused goals that will establish and enhance competitiveness. Highlights of the seminar are as follows.

- Presentation of the concept and significance of strategy and strategic planning
- Introduction to the main approaches to strategy formulation and goal setting
- Case examples of organizations formulating strategic plans
- Group work on specific cases and problems
- Extensive use of practical examples in which the course leader has been personally involved

Objectives

By the end of this seminar you will be able to:

- Understand how to design visionary strategic plans
- Work out how to translate strategic plans into action plans
- Examine a model for organizational and individual assessment
- Provide insights into strategic planning problems to avoid
- Identify and learn from examples of strategic success and failure
- Understand the nature of the organisational life cycle
- Provide insights into productive contingency planning

Training Methodology

The most up to date training methods are used to present this seminar. The seminar is carefully designed to address all styles of learning and to engage participants fully. Formal presentations and discussions are supplemented by group exercises. These exercises provide opportunities for personal participation in real situations. During these exercises you discover how to apply what you are learning. This process makes the learning process enjoyable, fast-paced, challenging and empowering.
