Manama (Bahrain)

Benchmarking Workshop Practical Implementation To Gain Performance Excellence

course code: M9300 From: 29 September - 10 October 2024 Venue: Manama (Bahrain) - Crowne Plaza course Fees: 3700 Euro

Program Overview

In this program you will learn about...

You will learn about the Best Worldwide Practices in Benchmarking.

You will understand the Step-by-Step Approach to Implementing Benchmarking in your Work, Your Department or Your Organization.

You will get an opportunity to Prepare a Detailed Action Plan for Implementing Benchmarking under the helpful supervision of a Benchmarking Expert.

“Benchmarking consist of identifying what process you want to improve finding organizations that perform this process well, measuring which organizations do it best and their level of performance on the identified process, and study methods of identified organizations and apply them with suitable alteration to the work.”

Benchmarking is the tool you use to identify proven opportunities for improvement in your department and organization. It is used to systematically promote innovation and excellence in any of your business processes. It provides you an understanding of the gap between your existing performance and your strategic goal to become a world class organization. It can also be used to create innovative products and services that provide leadership recognition to you, your department or your organization.

This program shows you how you can practically implement Benchmarking in your organization, department or section. Though the concept of benchmarking is simple enough – the problem comes in its proper implementation, This program covers methodologies for Internal Benchmarking, Industry Benchmarking and Cross-Industry Benchmarking.

This program provides you the step-by-step methodology that you can use to use to take full advantage of benchmarking for the achievement of your strategic objectives.
