Mastering Training Needs Analysis and Training Evaluation - Fast Track

course code: H3004 From: 9 - 20 September 2024 Venue: Tbilisi (Georgia) - course Fees: 4500 Euro

Introduction

This new program is in specific response from you our customers. It provides you with the latest thinking, methods and tools to be able to complete the two most important areas of training -TNA and Evaluation. In today's difficult financial climate these are the two areas that will really make a difference to any training function.

This program will also help to raise the professional profile of training because of its exact process approach. Using our methodologies you will be able to do TNA in less time and with greater accuracy, know what to evaluate and use a proven process to do predictive evaluation. If you are required to do so you will be able to show which training provides measurable value to the organisation using new techniques.

Objectives

By the end of this seminar delegates will be able to:

- Identify and be able to use the 4 level model for doing training needs analysis
- Master how competencies are constructed and know which are is the best to train to get good results
- Be able to use the new priority process (2009) to be able to prioritise all training requests
- Master training evaluation using the 10 step model
- Know what training is suitable for evaluation and which is not
- Have practiced evaluating a series of training courses
- Know how unit costs work and how to use them to make evaluation easy

Training Methodology

This is a practical program which will use case studies and appropriate DVD's and clips to enhance the learning. Throughout the week delegates will be able to work on real case studies to bring the methodologies to life. An extensive manual of in excess 25,000 words and a copy of all the slides and schemas will be available to help the delegate's retention of the subject matter and aid their understanding throughout the week.

Organisational Impact

A few of the benefits the organisation will gain are:

- Having a standard and auditable approach to training
- Having a much higher success rate ant identifying the right training through a process

- approach to TNA and evaluation
- Know which software to use to enhance and speed up TNA
- Have concrete information which will show clearly the value of training to the organisation
- Have confident and competent staff

Personal Impact

Benefits individuals will gain from this program are:

- Getting the complete tool box to be able to do accurate TNA and Evaluation
- Gained sufficient expert guidance to be able to implement immediately what has been taught and put it into operation
- Through working with our instructor who is an International expert in this area, gain the confidence needed to be able to make a difference in the company
- Gain and have mastered the two most important areas of training in today's economic situation
- Be able to demonstrate the immediate value of this course on return to the workplace
