Strategic Thinking & Business Planning

course code: C8215 From: 22 September - 3 October 2024 Venue: Kuala Lumpur (Malaysia) - Royale chulan hotel course Fees: 4500 Euro

Introduction

Too often company executives and professionals spend most of their time fixing day-to-day problems. They react to problems, rather than focusing on what they would like the company to be and then on making it happen. This program focuses on changing the way we think from reacting (responding to day-to-day problems, fixing and repairing) to developing plans for what we want to have happen and then implementing the plans.

In attending this course, you will gain the skills necessary to change your management approach from letting things happen to making things happen the way we want. These are necessary skills and key issues for anyone who is involved in:

- Developing a new company/division/department
- Improving the performance of an existing company/division/department when faced with major change in business conditions
- Balancing financial and non-financial objectives and goals
- Growing an existing company/division/department
- Planning his/her own career more carefully.

Objectives

The central objectives of this conference are as follows:

- Learn how to develop a plan to achieve the goals you want for you and your company, and develop strategic thinking in your organization/business unit/team.
- Determine where you and your company want to be.
- Develop a strategic plan for - your organization (company/division/business unit/team and for yourself personally.
- Identify the principles and mechanisms that drive successful implementation
- Develop measurable action plans that result in success. Identify, measure, and track critical success factors

Conference Methodology

The approach to the seminar is to combine formal presentation of the subject matter with class discussion of case studies that illustrate the issues that have just been presented. Some use of video-based material is included. Above all, the seminar leader will refer extensively to examples of strategic analysis and decisions made in companies with which he has been personally involved. This gives a real-life and up-to-date perspective on the subject.

Organisational Impact

- A greater strategic perspective at all levels of the organization
- Development of the next generation of strategic leaders
- Development of specialist managers who are able and empowered to think strategically.
- Better appreciation by functional specialists/managers of the challenges faced by top management in taking a company forward in changing conditions.
- Better internal communication at a strategic level within the company/division/business unit/team.
- Creating tomorrow's business out of today's

Personal Impact

- Greater confidence in understanding the potential strategic impact of your own current specialist managerial role.
- A vital knowledge base in preparing for greater responsibility and a potential move into general management and ultimately into top management.
- A better appreciation of the holistic nature of major business decisions.
- How to change from reacting to problems to making things happen the way you want for you and your company and to recognize the importance of planning what you want to happen instead of reacting to daily problems.
- How to simplify—manage 3-5 critical things instead of managing 50-60 unprioritised tasks
- How to develop long-term/medium-term/short-term plans.
