The Project Professional MBA

course code: P4077 From: 17 March 2025 - 2025 March 21 Venue: Boston (USA) - course Fees: 5500 Euro

INTRODUCTION

The Project Professional MBA is an intensive programme designed to sharpen your management skills and focusing on current best practices in project management. Delegates will cover management principles and the project life cycle, based on the best practices found in the Project Management Institute's A Guide to the Project Management Body of Knowledge (PMBOK® Guide). In this programme you will learn how to:

- Establish and accomplish goals that are linked directly to stakeholder needs
- Manage and motivate people more effectively
- Understand and effectively utilize strategic planning techniques
- Use the Baldrige performance criteria as a standard of excellence and benchmark for your organisation
- Create and harness the power of high performance teams
- Utilize tried and proven project management tools to get the job done on time, within budget and accordance with requirements
- Work through a proactive approach to risk that will give you a clear understanding of both qualitative and quantitative risk analysis

PROGRAMME OBJECTIVES

- Consider methods for improving management performance
- Gain insights into the successful implementation of teams
- Study the techniques for strategic planning
- Develop negotiation skills
- Analyse the Baldrige Award criteria for excellence
- Examine the application of management best practices
- Understand various Project delivery systems
- Apply Advanced Scheduling techniques
- Develop a Project Control System
- Improve Managerial and Leadership Skills
- Handle proactive and reactive techniques for project management

TRAINING METHODOLOGY

Participants will learn by active participation during the programme through the use of programme materials, hands-on computer-based exercises, group discussions, videos and discussions on "real life" issues.

PROGRAMME SUMMARY

This programme is created in response to the needs of the modern owner and contractor and the main goal is to provide participants with an intensive concentration of the critical aspects of management and project management. You will be loaded with advanced management skills with Project topics demonstrating how to integrate project objectives, owner capabilities, and project risks into a systematic approach to selecting delivery systems, contractor procurement, and project

execution and monitoring.
