

The Contracts & Project Management MBA

21 October - 8 November

Boston (USA)

The Contracts & Project Management MBA

course code: P4050 From: 21 October - 8 November 2024 Venue: Boston (USA) - course Fees: 8250 Euro

Introduction:

World-Class organisations understand well the benefits of lower total cost and higher productivity resulting from mastering best practices in the important phases of project and contract management. With a focus on the best practices for processes, methods, and techniques, this program will make a great contribution to the skill sets of those involved in contracts and projects.

This 2 part seminar provides both strategic and practical insights into:

- Preparing and administration of both the project plan and the contract
- Critical contractor selection & contractor negotiations
- Identifying and analyzing project and contract risk
- Selecting and leading project and contract teams
- Setting and Measuring Project and Contractor Performance goals

The seminar is split into two modules:

- MODULE I - Mastering Project Management
- MODULE II - Mastering Contracts Management - The Oxford 5-Day MBA

Objectives

Participants attending the program will gain from:

- Knowing your outcomes before you start a project
- Dealing with volatile materials pricing
- Discussing the importance of planning and how to manage the Planning Process
- Learning about contract types and how they transfer risk
- Defining and how to take massive action
- Exploring the various pricing models used in preparing proposals
- Methods of how to keep the team focused on the delivery goal
- Developing negotiation skill sets to gain the organisation's objectives
- How to set up and operate disciplines required to monitor and control projects
- Understanding important aspects of contractor price and cost analysis

Training Methodology:

- Participants will increase their knowledge base and skill sets through a variety of instructional methods including lecture by an experienced practitioner and consultant who has “been there-done that”, individual and group exercises, reviewing published articles, checklists, and group discussions covering current practices and their relationship to the implementation of new concepts.
- Attendees are encouraged to present problems for discussion on a confidential basis, and to share their experience of particular issues in their company or industry. A supportive comprehensive course manual, in both printed and CD form, enabling practical application and reinforcement is provided. Time will be allowed for general discussions, and for one-to-one discussion with the senior consultant.

Organisational Impact

The organization will benefit by:

- Having the desired outcomes in commercial transactions
- Having better trained project and contract personnel leading and guiding the contracting and project process
- Continuous improvement in the alignment of project results and the organization’s goals
- Higher productivity of personnel involved in contract and project activities
- Making projects and contracting a high value added process
- Improvements in the performance of contractors

Personal Impact

Attendees will gain by participation in this program through:

- Mastering skills in managing project and contract activities
- Improved negotiation skills
- Greater ability to develop professionally
- Increased job satisfaction by becoming more expert
- Receiving increased recognition by their organization leading toward advancement
- Greater confidence in leading, planning, and managing the entire project and contract process
